

Have a problem?

There is no doubt about it - when a problem arises with the services in your home or business, you don't want to wait for too long for a service engineer.

The lights and power may be off, the pipes leaking, and why does the heating always fail on the coldest day of the year.

But where do you find good reliable engineers when you most need them?

That's where we can help.

Who are we?

We have been established for over 25 years and have been providing reliable service - from Highgate to Belgravia, Islington to Maida Vale, serving north London generally.

It is quite likely that someone you know has used us in the past and would recommend our services. If not, we can provide references.

Our high standards and quality of craftsmanship, supported by references from our clients, enabled us to become members of the Guild of Master Craftsmen.

We are only a telephone call away.

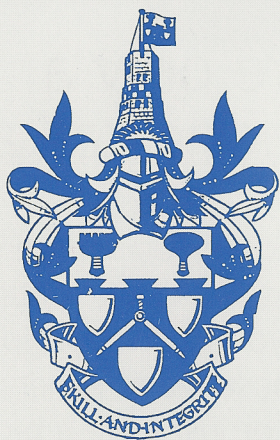

If you need a good service engineer, or are considering decorating, inside or out, if you have a roof problem, need purpose made joinery, wrought ironwork, or just have a broken window that needs replacing, we would like to hear from you!

If you don't need us now, keep these numbers where you can find them in a hurry - it may be an emergency.
